How to Install the Evein Chrome Extension

BETA

INTRO ABOUT EVEIN

Evein is a powerful AI-enhanced productivity tool designed to help professionals get more value from LinkedIn.

With Evein, you can instantly understand any profile, uncover contact information, improve your own profile, and generate high-quality content all from one clean, elegant interface.

Key Features

Deep Profile Analysis

Understand any LinkedIn profile in seconds. **Evein** summarizes seniority, skills, background, role fit, interest areas, and business signals giving you a clear picture instantly.

Contact Reveal

With one click, Evein can reveal available:

- Phone numbers
- Email addresses
- Social Media

Smart Reply Assistant

When browsing any LinkedIn post, Evein encourages you to engage and helps you:

- Understand the post
- Generate meaningful comment

AI Writer: Let's Post

A guided wizard that helps you:

- Create engaging LinkedIn posts
- Generate professional copy
- Produce a matching AI visual

Step 1

Open Evein.net and Download the Extension

Navigate to Evein Website

Open your browser and enter Evein.net in the address bar

Locate Download Button

Look for the download button with digital particles transition effect

Find the Downloaded ZIP File

## Your browser saves it to the Downloads folder.

- Open your computer's file explorer or finder
- Navigate to the default Downloads folder
- Look for the ZIP file with today's date
- The file name typically matches the website download name

Open Chrome Extensions

# Your browser saves it to the Downloads folder.

- Navigate to Menu → Extensions → Manage Extensions
- Click the three-dot menu icon in Chrome's top-right corner
- Hover over "More tools" in the dropdown menu
- Select "Extensions" from the secondary menu
- This opens the Extensions management page

Turn On Developer Mode > Load unpacked

- Locate the <mark>Developer</mark> mode toggle in the upper right corner of Chrome's extensions page and switch it to the ON position.

- Navigate to the unzipped Evein folder in your file explorer

Step 5

Evein Is Now Installed!

- The floating icon will appear on LinkedIn.

- You have successfully installed Evein!
